

SARCOMAS

Overview:

Every patient is different. Proton therapy can be a great option for sarcomas because it limits radiation to healthy tissues and only targets the cancer cells.

Experts:

Dan K. Kunaprayoon, MD, William F. Regine, MD, FACR, FACRO, and Zeljko Vujaskovic, MD, PhD

Dr. Regine was named a Top Radiation Oncologist by Baltimore Magazine in 2020. Dr. Vujaskovic is internationally recognized as an expert in radiation oncology.

Proton therapy may be a good option for you if...

- You have angiosarcoma
- You have fibrosarcoma
- You have chondrosarcoma
